Located in the Isle de Noé is this bungalow for sale which also complies with regulations for disabled access. There are 153m² of living space including four bedrooms, one of which equipped for disabled access. This family home has 2900m² of land.

On entering this 2900m² property you will fall under the spell of the pretty, tree-filled garden.

Constructed in 1968 and renovated and extended in 2013 by professionals with disabled access added, the property has heat pump reversible heating, exterior insulation on the most recent part and a micro-station individual sewage system up to current regulations at publication.

You enter this home by a charming, 18m² conservatory with, to your right, the main space of the house consisting of an 18m² dining room and 10m² open kitchen. Continuing on from the dining room is the 17m² sitting room with private, fenced terrace of 8m². A 4.5m² passageway leads to two bedrooms (10m² & 11m²).

You will have at your disposal a 5m² washroom and separate toilet (2.3m²) complying with disabled access regulations.

Back to the conservatory and the second bedroom offering 20m² of space, with full disabled access, and a 9m² bedroom with 7m² walk-in wardrobe.

The disabled access room has a sliding door to the north facing terrace.

This modern home is equipped to house a person of reduced mobility: ground floor bedroom, ceiling-fixed transport rail with flail for moving from bed to toilet and bathroom.

The west facade has exterior insulation.

The pretty garden is entirely fenced and has an automated gate. There is a 36m² storage building and a 13.5m² garden shed.

The roof has a recently laid tile covering. The roof framework is traditional in the older part of the house with trusses on the newer part. Windows are PVC and aluminium framed. Heating is provided by an air-water heat pump system as well as a wood burner. The property is served by an individual sewage system up to current regulations at publication.

The diagnostic survey is currently being carried out.
